LKS.

The social season is on for the Elks. Already the entertainment and social committees have set plans for several social sessions, including a ladies' night.

On Tuesday night election returns will be received at the home, and the committee has provided for an open house with a good entertainment and refreshments. It is expected that many Elks will take the opportunity.

On Nov. 14th the first ladies' night of the season will take place. As these ladies' nights last year found so much favor, members of the committee are certain they will be a success this year.

An old-fashioned dance will be given in the hall on Thanksgiving eve and, according to the Elks' bulletin, it is not going to be a "dry" affair. "Any old time will be good enough."

The bowling alleys have been fixed over and the tournament is on. The first games will be played on next Monday night, when team No. 1 plays team No. 2 in the initial games.

Members of team No. 1 are Frost, Gallivan, Hutchinson, Aubrey and Von Hornig; team No. 2, Combes, Counihan, Murtha, Keegan and Bogue. On Friday night teams No. 3 and 4 meet.

situation with reference to the matter or organization and told of the benevolence to be derived from a milk producers' organization. He cited the action of milk producers in Chicago, New York, Providence and other large cities and said that it was by the associations that had been formed that the producers were able to get the prices they demanded. He said that when the producers went to the large contractors and demanded larger prices for their products the contractors simply replied, "Let's see you get it." And the fight in each city has gone merrily on with the final result that in both Chicago and New York through organization of milk producers' organizations the contractors have been forced to meet the demands made upon them. In Providence and Boston the situation has not yet been cleared. In one part of the state there has been found milk producers who are willing to supply the market provided they get their prices while the others are pouring their milk to waste. The purpose of organization, stated the agent, is to help one another, not only help your neighbor but help another who is not your neighbor but who is engaged in the same business.

When the chairman asked the meeting to express whether it favored the matter of organization the large majority of the milkmen present rose and to be fair he asked those who opposed such a step to state their reasons. It was taken as the sense of the meeting that organization was desired.

The following agreement was signed by a number of the milkmen: "I favor the organization of a Norwich Milk Producers' association which will endeavor to secure for such an association a proper committee to take up the matter of proper marketing."

As a result of a meeting of a number of milk dealers held in the town hall on Friday afternoon at 1 o'clock, it is probable that a milk dealers' association will be formed.

The meeting lasted about two hours and different phases of the business were discussed. James McCarthy was elected chairman and presided while Dwight Avery was chosen clerk.

PARALYSIS CASE FOUND AFTER CHILD RECOVERED.
Victim is Esther Wilson, 9 Year Old New London Girl.

A post infantile paralysis case was discovered in New London a day or two ago by Health Officer Edwin C. Chipman. The victim is Esther Wilson, 9 year old daughter of Capt. and Mrs. Wilson of Crystal avenue. When the case was discovered the child had recovered from the disease, but its legs were paralyzed. The case was an importation into New London.

The little Wilson girl came to New London from Rutland, Me., the first part of September. Her parents presented to the health authorities a certificate of health from the health officer of Rutland and the child was admitted into the city.

Last week Dr. Chipman was called to attend the child, who had lost the use of its legs, and the health officer immediately diagnosed the affliction infantile paralysis, from which the child had otherwise recovered.

Then an investigation was started, and it was learned that the child had been ill in Rutland, but the attending physician had diagnosed the case as rheumatic fever. When the parents desired to bring the child to New London the health officer, who lived next door to the child's parents, gave them a health certificate which was presented to the New London Health Officer. The certificate was unqualifiedly refused, and the child was not permitted to enter the city.

Later developments showed that the child had had infantile paralysis, during which it had lost the use of its legs.

Health Officer Chipman has reported the matter to Secretary J. T. Black of the state board of health and has notified the Rutland health officer of the discovery of the case in New London. Health Officer Chipman states that there is no danger from the case, as there are no children in the house

with the Wilson child and that it has not been exposed. In fact, it is extremely likely that the child, who was covered from the disease before it arrived in New London, nearly two months ago.

SHOT DEER IN THE MAINE WOODS.
Henry Woodward and C. D. Hewitt Spent Two Weeks at Enchanted Lake.

Henry Woodward, the local jeweler, and his son-in-law, C. D. Hewitt, have returned from a hunting trip in the Maine woods. They went to Comoxie on the Somerset railroad and from there went by auto for a distance of 21 miles to Parlin pond, and then walked nine miles to Enchanted lake. While at the lake they stopped with Tommy Gerard. They were gone two weeks and got two deer each. While they were on the trip there was a short hailstorm and snow fell on the mountain tops. The weather, however, was generally fine and they enjoyed their trip very much. They returned home via Moosehead lake.
